

**SAFETY DATA SHEET**  
**PLASTIC & RUBBER CARE**

**SECTION 1: Identification of the substance/mixture and of the company/undertaking**

<b><u>1.1. Product identifier</u></b>	
Product Name	PLASTIC & RUBBER CARE
Internal ID	MTS 0012
<b><u>1.2. Relevant identified uses of the substance or mixture and uses advised against</u></b>	
Identified uses	Finish coat.
Uses advised against	Use only for intended applications.
<b><u>1.3. Details of the supplier of the safety data sheet</u></b>	
Supplier	Motor Trade Supplies Ltd Unit 5 Preston Nurseries Weghill Road Hull HU12 8SX +44 (0) 7778 411 723 <a href="mailto:sales@mtsproducts.co.uk">sales@mtsproducts.co.uk</a>
<b><u>1.4. Emergency telephone number</u></b>	
Emergency telephone	+44 (0) 7778 411 723 Opening Hours 9 am - 4 pm (Monday - Friday)

**SECTION 2: Hazards identification**

<b><u>2.1. Classification of the substance or mixture Classification (EC 1272/2008)</u></b>	
Physical hazards	Not Classified
Health hazards	Not Classified
Environmental hazards	Not Classified
<b><u>2.2. Label elements</u></b>	
Hazard statements	NC Not Classified
Precautionary statements	P280 Wear protective gloves. P501 Dispose of contents/ container in accordance with national regulations.
Supplemental label information	EUH210 Safety data sheet available on request.
<b><u>2.3. Other hazards</u></b>	
This product does not contain any substances classified as PBT or vPvB.	

**SECTION 3: Composition/information on ingredients****3.1. Mixtures**

None of the ingredients are required to be listed.

**SECTION 4: First aid measures****4.1. Description of first aid measures**

<b>General information</b>	Show this Safety Data Sheet to the medical personnel. If medical advice is needed, have product container or label at hand.
<b>Inhalation</b>	Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing.
<b>Ingestion</b>	Rinse mouth thoroughly with water. Do not induce vomiting. Get medical attention if any discomfort continues.
<b>Skin contact</b>	Rinse immediately with plenty of water. Get medical attention if any discomfort continues.
<b>Eye contact</b>	Rinse with water. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if symptoms are severe or persist after washing.
<b>4.2. Most important symptoms and effects, both acute and delayed</b>	
<b>Inhalation</b>	Coughing, chest tightness, feeling of chest pressure.
<b>Ingestion</b>	Gastrointestinal symptoms, including upset stomach.
<b>Skin contact</b>	Prolonged contact may cause dryness of the skin.
<b>Eye contact</b>	May cause discomfort.
<b>4.3. Indication of any immediate medical attention and special treatment needed</b>	
<b>Notes for the doctor</b>	Treat symptomatically.

**SECTION 5: Firefighting measures****5.1. Extinguishing media**

<b>Suitable extinguishing media</b>	Use fire-extinguishing media suitable for the surrounding fire.
<b>5.2. Special hazards arising from the substance or mixture</b>	
<b>Hazardous combustion products</b>	Thermal decomposition or combustion products may include the following substances: Carbon monoxide (CO). Carbon dioxide (CO <sub>2</sub> ).
<b>5.3. Advice for firefighters</b>	
<b>Protective actions during firefighting</b>	No specific firefighting precautions known.

**SECTION 6: Accidental release measures****6.1. Personal precautions, protective equipment and emergency procedures**

<b>Personal precautions</b>	Wear suitable protective equipment, including gloves, goggles/face shield, respirator, boots, clothing or apron, as appropriate. Do not touch or walk into spilled material. Provide adequate ventilation. Avoid contact with skin, eyes and clothing. Take care as floors and other surfaces may become slippery. Avoid contact with contaminated tools and objects. Do not handle broken packages without protective
-----------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

	equipment. Wash thoroughly after dealing with a spillage.
<b>6.2. Environmental precautions</b>	
<b>Environmental precautions</b>	Do not discharge into drains or watercourses or onto the ground.
<b>6.3. Methods and material for containment and cleaning up</b>	
<b>Methods for cleaning up</b>	Wear suitable protective equipment, including gloves, goggles/face shield, respirator, boots, clothing or apron, as appropriate. Absorb spillage with non-combustible, absorbent material. Collect and place in suitable waste disposal containers and seal securely. Containers with collected spillage must be properly labelled with correct contents and hazard symbol. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage.
<b>6.4. Reference to other sections</b>	
<b>Reference to other sections</b>	Wear protective clothing as described in Section 8 of this safety data sheet.

## SECTION 7: Handling and storage

<b>7.1. Precautions for safe handling</b>	
<b>Usage precautions</b>	Wear protective gloves. Provide adequate ventilation. Avoid contact with skin, eyes and clothing. Do not eat, drink or smoke when using this product. Do not reuse empty containers. Do not empty into drains. Avoid contact with contaminated tools and objects. Do not handle broken packages without protective equipment. Wash hands thoroughly after handling.
<b>7.2. Conditions for safe storage, including any incompatibilities</b>	
<b>Storage precautions</b>	Store at temperatures between 4°C and 40°C.
<b>Storage class</b>	Chemical storage.
<b>7.3. Specific end use(s)</b>	
<b>Specific end use(s)</b>	The identified uses for this product are detailed in Section 1.2.

## SECTION 8: Exposure controls/Personal protection

<b>8.1. Control parameters Occupational exposure limits</b>	
<b>Ingredient comments</b>	No exposure limits known for ingredient(s).
<b>8.2. Exposure controls</b>	
<b>Protective equipment</b>	
	
<b>Appropriate engineering controls</b>	Provide adequate ventilation.
<b>Eye/face protection</b>	Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Personal protective equipment for eye and face protection should comply with European Standard EN166. The following protection should be worn: Tight-fitting safety glasses.

<b>Hand protection</b>	Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. To protect hands from chemicals, gloves should comply with European Standard EN374. The breakthrough time for any glove material may be different for different glove manufacturers. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. When used with mixtures, the protection time of gloves cannot be accurately estimated. Frequent changes are recommended. Protective gloves should have a minimum thickness of 0.15 mm. Glove thickness is not necessarily a good measure of glove resistance as the permeation rate will depend on the exact glove composition. Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected. The choice of protective gloves depends upon the chemicals being handled, and the conditions of work and use. Repeated exposure to chemicals will degrade the ability of the glove to provide resistance to chemicals. Specific work environments and material handling practices may vary, therefore safety procedures should be developed for each intended application. Gloves made from the following material may provide suitable chemical protection: Nitrile rubber. Rubber (natural, latex). Neoprene.
<b>Hygiene measures</b>	Wash hands after handling.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

<b>Appearance</b>	Emulsion
<b>Colour</b>	White
<b>Odour</b>	Fruity
<b>pH</b>	pH (concentrated solution): 7.8
<b>Relative density</b>	0.99 @ 25°C
<b>Solubility(ies)</b>	Soluble in water.
<b>Viscosity</b>	400 cP @ 25°C
<b>9.1. Other information</b>	
<b>Other information</b>	Not determined.

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

<b>Reactivity</b>	There are no known reactivity hazards associated with this product.
<b>10.2. Chemical stability</b>	
<b>Stability</b>	Stable at normal ambient temperatures and when used as recommended.
<b>10.3. Possibility of hazardous reactions</b>	
<b>Stability</b>	Not determined.
<b>10.4. Conditions to avoid</b>	
<b>Conditions to avoid</b>	There are no known conditions that are likely to result in a hazardous situation.
<b>10.5. Incompatible materials</b>	
<b>Materials to avoid</b>	No specific material or group of materials is likely to react with the product to produce a hazardous situation.

<b>10.6. Hazardous decomposition products</b>	
<b>Hazardous decomposition products</b>	Thermal decomposition or combustion products may include the following substances: Carbon monoxide (CO). Carbon dioxide (CO <sub>2</sub> ).

**SECTION 11: Toxicological information**

<b>11.1. Information on toxicological effects</b>	
<b>Acute toxicity - oral</b>	
<b>Notes (oral LD<sub>50</sub>)</b>	Read-across data. Based on available data the classification criteria are not met.
<b>Acute toxicity - dermal</b>	
<b>Notes (dermal LD<sub>50</sub>)</b>	Based on available data the classification criteria are not met. Read-across data.
<b>Acute toxicity - inhalation</b>	
<b>Notes (inhalation LC<sub>50</sub>)</b>	Based on available data the classification criteria are not met. Read-across data.
<b>Skin corrosion/irritation</b>	
<b>Skin corrosion/irritation</b>	Based on available data the classification criteria are not met. Read-across data.
<b>Serious eye damage/irritation</b>	
<b>Serious eye damage/irritation</b>	Based on available data the classification criteria are not met. Read-across data.
<b>Respiratory sensitisation</b>	
<b>Respiratory sensitisation</b>	Based on available data the classification criteria are not met. Read-across data.
<b>Skin sensitisation</b>	
<b>Skin sensitisation</b>	Based on available data the classification criteria are not met. Read-across data.
<b>Germ cell mutagenicity</b>	
<b>Genotoxicity - in vitro</b>	Does not contain any substances known to be mutagenic.
<b>Carcinogenicity</b>	
<b>Carcinogenicity</b>	Does not contain any substances known to be carcinogenic.
<b>Reproductive toxicity</b>	
<b>Reproductive toxicity - fertility</b>	Does not contain any substances known to be toxic to reproduction
<b>Specific target organ toxicity - single exposure</b>	
<b>STOT - single exposure</b>	Based on available data the classification criteria are not met. Read-across data.
<b>Specific target organ toxicity - repeated exposure</b>	
<b>STOT - repeated exposure</b>	Based on available data the classification criteria are not met. Read-across data.
<b>Aspiration hazard</b>	
<b>Aspiration hazard</b>	Not anticipated to present an aspiration hazard, based on chemical structure.
<b>Inhalation</b>	Coughing, chest tightness, feeling of chest pressure.
<b>Ingestion</b>	Gastrointestinal symptoms, including upset stomach.
<b>Skin contact</b>	Prolonged contact may cause dryness of the skin.
<b>Eye contact</b>	May cause discomfort.
<b>Acute and chronic health hazards</b>	May cause discomfort. No specific long-term effects known.
<b>Route of exposure</b>	Dermal
<b>Target organs</b>	Eyes Skin
<b>Medical symptoms</b>	No specific symptoms known

**SECTION 12: Ecological information**

<b>Ecotoxicity</b>	Not regarded as dangerous for the environment.
<b>12.1. Toxicity Acute aquatic toxicity</b>	
<b>Acute toxicity - fish</b>	Not determined.

<b>12.2. Persistence and degradability</b>	
Persistence and degradability The product is expected to be biodegradable.	
<b>12.3. Bioaccumulative potential</b>	
Bioaccumulative potential	The product does not contain any substances expected to be bioaccumulating.
<b>12.4. Mobility in soil</b>	
Mobility	The product is soluble in water.
<b>12.5. Results of PBT and vPvB assessment</b>	
Results of PBT and vPvB assessment	This product does not contain any substances classified as PBT or vPvB.
<b>12.6. Other adverse effects</b>	
Other adverse effects	Not determined.

### SECTION 13: Disposal considerations

<b>13.1. Waste treatment methods</b>	
Disposal methods	Disposal of this product, process solutions, residues and by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any local authority requirements.

### SECTION 14: Transport information

General	The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).
<b>Special Provisions note</b>	
<b>14.1. UN number</b>	
UN No.	N/A
<b>14.2. UN proper shipping name</b>	
Proper shipping name	N/A
<b>14.3. Transport hazard class(es)</b>	
Hazard class	N/A
Transport labels N/A	
<b>14.4. Packing group</b>	
Packing group	N/A
<b>14.5. Environmental hazards</b>	
Environmentally hazardous substance/marine pollutant: No	
<b>14.6. Special precautions for user</b>	
Special precautions for user	N/A
<b>14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code</b>	
Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code	Not applicable.

### SECTION 15: Regulatory information

<b>15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture</b>	
National regulations	Control of Substances Hazardous to Health Regulations 2002 (as amended).
EU legislation	Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures (as amended). Commission Regulation (EU) No 2015/830 of 28 May 2015.
Guidance	Workplace Exposure Limits EH40.
<b>15.2. Chemical safety assessment</b>	
No chemical safety assessment has been carried out.	

**SECTION 16: Other information**

<b>Abbreviations and acronyms used in the safety data sheet</b>	ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road. IATA: International Air Transport Association. IMDG: International Maritime Dangerous Goods. PBT: Persistent, Bioaccumulative and Toxic substance. UN: United Nations. vPvB: Very Persistent and Very Bioaccumulative.
<b>Revision comments</b>	N/A
<b>Revision date</b>	01/10/20
<b>Revision</b>	1.0
<b>Supersedes date</b>	N/A

The information provided in this document is based on our present state of knowledge of the product and is given in good faith and to the best of our experience. However, it should not be construed as a technical specification or as guaranteeing specific properties, accuracy, reliability or completeness. In no event we will be responsible for damages or effects of any nature whatsoever, either express or implied, resulting from the use of this information. It is the own responsibility of the consignee and the user of the product to comply with all prevailing and applicable laws, regulations and directives. They should also make their own determination as to the suitability of the product for a particular use or application by carrying out a full risk assessment of their specific processes and systems of work. All information contained within this document is for the product in its undiluted state and relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is, to the best of the company's knowledge and belief, accurate and reliable as of the date indicated.
